FOREWORD

THE catalogue of this auction offers for sale a very extensive range of coins, with a particular emphasis on gold. With the permanent threat of ever-increasing prices, it is now unusual for such a selection to be offered for sale in a single auction. Of particular interest are the ten 18th Century gold bullion bars from Mexico City. Two of the smaller bars in this sale realised high prices when offered for sale in Switzerland ten years ago, and, to our knowledge, no bar as heavy as 498.96 gms. (lot 507) has ever been offered for sale by public auction.

The strongest sections of the sale are the various groups of coins of South America, beginning with a collection of gold coins of Chile. In all there are 300 lots of gold coins from the Americas. The silver coins of the Americas are almost as extensive: they include several major rarities and also one of the most comprehensive selections of silver cobs of the mint of Potosi to appear for several years. For the benefit of collectors and students of this interesting, and largely unresearched, series, many of the coins have been listed individually.

We would also draw attention to the small but interesting group of Latin-American medals and decorations.

The gold and silver coins of Europe and Asia are of above average quality and the collection of Russian coins is comparable to the Michele Baranowsky Collection sold in June of this year.

The rarer and more interesting coins are illustrated in the 40 plates, these being taken from direct photographs. A bibliography lists the works of reference used, which is particularly helpful on the South American series. There is also an index of countries and territories by lot numbers.

We feel that this sale will provide many excellent opportunities for collectors of the many countries and series covered.

COIN CATALOGUES

On the average we issue twelve or more Coin Catalogues each year, some of which are usually of sales of important collections.

CATALOGUE SUBSCRIPTIONS

PRE-SALE CATALOGUES, frequently illustrated, are normally posted to subscribers about three weeks prior to the date of Sale.

PRICED CATALOGUES (not illustrated) are issued after each Sale with the prices realised printed in the margin opposite each Lot, thus giving at a glance a reliable guide to values. The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading.

The Priced Catalogues are posted to subscribers as soon as ready, usually about three weeks after the date of Sale.

Subscription Rates

(*commencing from 1st January*)

Pre-Sale Coin Catalogue	.....	£1.00 per annum
Priced „ „	.....	£2.00 „ „

(Reductions for new subscribers commencing after 1st April.)

All subscriptions expire on 31st December, and renewal reminders are issued. Catalogues of past Sales cannot be supplied.

AIR MAIL

To allow subscribers resident outside Europe time to submit postal bids, Pre-Sale Catalogues will, if desired, be sent by Air Mail. Air Mail postage is not, however, included in the Subscription Rate and must be borne by the subscriber. In such cases an additional £2.00 should be sent as a deposit and we will advise when this is exhausted.
